PROJECTS

The Tiffin Wala   *React.js, Redux, ExpressJs, Node.js, MongoDB, Html, Css, Javascript*   Source Code

- **Implemented end-to-end meal ordering and management system**, integrating JWT authentication, Razorpay payment gateway, and Nodemailer for real-time email notifications, enhancing security and user experience.
- **Developed dynamic user and provider dashboards** enabling seamless meal addition, order management, provider search by address, order tracking, and review submission, contributing to a highly interactive user interface.

Edtech Platform   *React.js, Redux, ExpressJs, Node.js, MongoDB, Html, Css, Javascript*   Source Code

- **Engineered a scalable EdTech platform** with robust features like JWT authentication, secure Razorpay payment processing, and automated email notifications via Nodemailer, enhancing user experience and transaction security
- **Designed and implemented dynamic instructor and user dashboards**, facilitating seamless course management, purchase, and review processes, driving user engagement and satisfaction.

Portfolio   *Html, Css, Javascript*   Source Code

- **Developed and deployed a fully responsive** personal portfolio website using modern web technologies (HTML, CSS, JavaScript), showcasing my professional projects, skills, and achievements to enhance personal branding and online presence.
